Value Education #5

→ Talk / summary about chapter 1 & 2 by me and discussion related to it

→ Discussion on what is needed and what is not needed for survival

→ Questions raised on whether "The need to know" is a survival need or not.

→ I personally think the need to know is a fundamental requirement.

→ Question was raised on why defining knowing is the problem here, how one cannot answer the question of "whether you want to know something or not" is based on how one defines "knowing" itself.

→ This definition of knowing is ~~cannot~~ ^{is very} loose here and therefore you have to assume.
